I wanted to send you a quick note regarding my experience with your product, SEA-SPEED V3. I just had my refurbished 28 foot Cigarette high performance boat and since I keep my boat in the water at all times; I coated the bottom with SEA-SPEED V3.

As a yacht restoration company owner I am pleased to tell you that the boat has picked up two knots of speed and after four months in the water there is no sign of growth on the bottom. I am very pleased with the product and service and I will highly recommend this product to all boaters.

Who would not want to increase the overall speed of their vessel and fight bottom growth? I am thankful I used your product.

Dennis Foster, President
